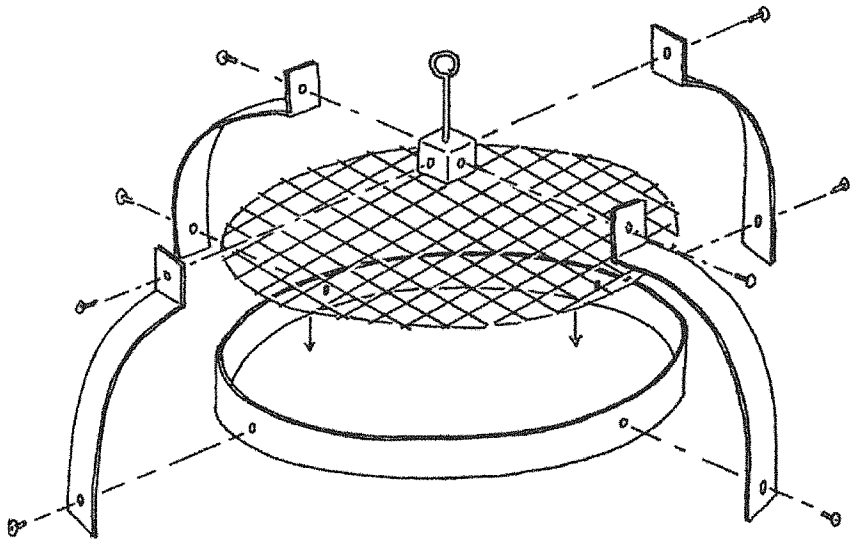
Old Dutch

Series #102
20" Dia. Dome Pot Rack



Assembling and mounting your Pot Rack as simple as possible. Familiarizing yourself with the parts and reading through these instructions carefully before assembly will help make putting together your Pot Rack easy and fast.

The only tool needed for assembly is screwdriver. Other tools may be needed to properly install your Pot Rack.

All parts were inspected before shipping. If you find that any parts are missing or if you encounter any other problems, please phone Customer Service Toll-Free at 1-888-826-7737 (from N.J. call 201-794-6262), Mon.-Fri., 9am-5pm EST.

Assembly & Installation Instructions

Assembling the rack

1. Place the grid over the grid supports.

2. Attach the 4 arms to the square hanging hub using 4 short screws, leaving the screws slightly loose. Make sure the eye hook is facing up.

3. Place the arms over the outside of the round rack. Attach the arms to the round rack with 4 short screws, leaving the screws slightly loose.

4. Square up the assembly by aligning the arms so that they are at right angles to the round rack. Tighten all the screws.

5. Hang pot hooks from edges of rack frame. Pot hooks hung from the grid should only be hung from the interior squares: Do not hang hooks from the perimeter or cut portions of the grid. Distribute the weight of any items hung from pot hooks or stored on the grid evenly.

Mounting the rack

This rack must be mounted directly into the solid wood of a ceiling joists or beam. It is unsafe to mount this rack in any other manner. If you are unsure how to mount this rack safely please consult a qualified carpenter or handyperson.

1. Drill a hole (using a 3/16" bit) into solid wood joist or beam.

2. Screw ceiling hook into the hole.

3. Hang the rack by inserting the eye hook into the ceiling hook. Because this rack is large and heavy you may need a helper to lift and position the rack.

Care and Use

Always distribute the weight of any items stored on the grid or hung on the pot rack evenly.

Decor Copper Finis h: The copper plating has been given a clear, protective coating to prevent tarnishing. Clean with a soft, damp cloth. You can also use a window cleaner. Dry thoroughly. Never use abrasive cleaners.

Satin Nickel Finish: The nickel plating has been given a clear, protective coating to prevent tarnishing. Clean with a soft, damp cloth. You can also use a window cleaner. Dry thoroughly. Never use abrasive cleaners.

Chrome Finish: Clean with a soft, damp cloth. You may also use a window cleaner. Dry thoroughly. Never use abrasive cleaners.

Powder Coat Finish: Clean with a sponge, moistened with dishwashing solution. Dry thoroughly. Never use abrasive cleaners.

Warning:
It is important that your rack is properly assembled and mounted. If the rack is incorrectly assembled, mounted or used it could become unstable or collapse, possibly causing damage or injury.
